## About Us

Equity Pro Realty, Inc., is an independent residential and commercial brokerage firm formed by Bill Witter. We cover the entire spectrum of residential and commercial transactions for our clients. This includes Single Family, Multi-family, Office, Retail, Industrial, Development, and Hotels. Bill Witter, with his small, dedicated staff, have transacted over \$500,000,000 in residential commercial transactions. We are based in the Tampa Bay region of Florida and have closed deals from Key West to Jacksonville Florida.

## Mission Statement

Our purpose is to investigate what our clients needs against current market conditions. We will provide a full evaluation, presenting our findings along with a recommendation of what move makes the best financial sense and benefit our clients in both the short and long term.

## What Makes Us Unique

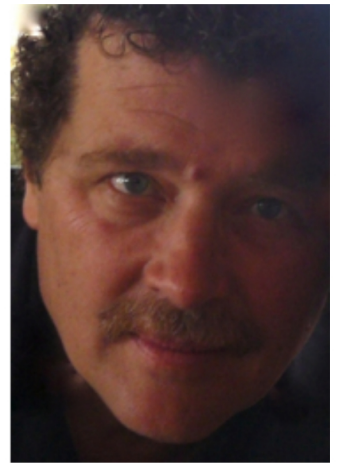

We are different than the “big boys and girls” in Residential and Commercial Real Estate. Equity Pro Realty, Inc. has the same tools and resources of any of the large brokerages, with the flexibility of a small operation. Our clients, once they are with us on a transaction, stay with us and become more our friends than just clients. We pride myself on finding deals for our clients that other firms consider too much work. Our statistics tell the story.

Bill Witter is not your typical Commercial Real Estate Broker. "There are many deals that I have steered my clients away from. This is important if you want a continuing relationship with your clients. I think and act based on the long-term and am against the mentality of *just get it closed now and collect a commission.*"

However, the big difference between Equity Pro Realty and other firms is our willingness to lose a deal or client if we determine a client is making a bad investment. We have had clients come back to us when they have taken actions we did not recommend. That is the BIG difference between this firm and others.

Bill Witter's name is highly recognized nationally and locally as a Commercial Broker who gets results for his clients. He is a member of all Commercial Trade Groups nationwide and has dealt with Commercial Real Estate Investors from all over the world.
