Co – Brokering

Something that definitely separates Equity Pro Realty from other Commercial Brokerages is the way we work with and respect other commercial agents (whether in our state or not.) We totally cooperate with other brokers on any commissions. We NEVER step on our side of a transaction. We also never attempt to take over another broker's client.

Our Happy Clients Feedback

My agent at Equity Pro Realty made the buying process easy as could be. Always available for questions and is very knowledgeable of the area. I loved hearing a little history or fun fact about all of the neighborhoods we checked out. Would recommend to anyone I know looking to buy or sell!

Matt was fantastic to work with, he was prompt in his responses to us and worked hard to try to find a house we would love. When we did find the house for us, he managed to persist through sellers who only wanted cash offers and two cash offers which ultimately fell through and allowed us to swoop in as the backup offer the second time around closing the deal and negotiating the price down from what the house was listed for. He has also helped previously with different condo listings and amending his search results to help us fine tune the best properties for us to look at and see. We will absolutely work with Matt on future purchases!

My agent was great! Got us a great price on a house we really wanted and everything went extremely smoothly! Helped us negotiate a good price and we couldn't be happier! He was professional and we highly recommend him and his agency!
