Find Best Property On California

Multi-family is originally all I did in commercial real estate and became my area of expertise. My experience as a broker put me in the top five brokers by sales, in the State of Florida. The following are just a sampling of the transactions we have completed in recent years. These transactions ranged in price from fourplex apartments to sales of apartment complexes of over four hundred units.

"Whatever your investment needs – I am here to help you achieve them."
